PRODUCT DESCRIPTION

MODEL	BRD SERIES
	PT33
FIELD OF VIEW	120°
LIGHTING	6 high brightness LEDs, adjustable lighting
OPERATING TEMPERATURE	-20°F ~ 120°F (-20°C ~ 50°C)
CAMERA HOUSING MATERIAL	Stainless steel # 304L
PAL/NTSC OUTPUT	2.0 Mega Pixels
WATERPROOF	IP68
DIAMETER	7mm fiberglass cable reel Fibreglass push rod cable
CAMERA DIAMETER	33mm
CABLE LENGTH:	30 Meter

MONITOR	13" Digital Colour monitor Resolution: 1280×720
DIGITAL VIDEO RECORDING: (WITH REMOTE OPERATED)	
RECORDING FORMAT	ASF (Video), JPEG (Image)
STORAGE MEDIUM	Standard 8 GB SD card (Upto 32 GB)
POWER SUPPLY AND BATTERY	
Charge adaptor: 110~240VAC, 12.5 VDC /1500mA (included.)	
Battery: 6800mA li-ion	
OSD Interface Operation: video text overlay unit uses the standard UK keyboard mapping.	
Digital meter counter: Meter / FEET	

APPLICATION

The equipment is widely used in domestic and foreign municipal pipelines, factories and enterprises, petrochemical industry, aviation and automobile inspection, railway locomotive inspection, building inspection, water conservancy and hydropower, survey institutes and field investigation, disaster search and rescue and other relatively dark environments, and can easily check internal cracks, corrosion, welds, blockages and other abnormal conditions.
